**DETAILED ACTION**

***Response to Amendment***

The reply filed on 7 November 2006 is not fully responsive to the prior Office Action because:

Newly submitted claims 48-113 are directed to inventions that are independent or distinct from the invention originally claimed for the following reasons: the inventions of each of

- 1) claims 48-62,
- 2) claims 63-70,
- 3) claims 71-83,
- 4) claims 84-100, and

5) claims 101-113, are drawn to inventions of a different scope from those to which an Office Action has been issued, and would be properly restrictable on the above claim groupings were the claims presented alone. The original claims required "a hydrophilic polymeric material and a water soluble polymer."

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 48-113 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Art Unit: 1711

Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan M. Nutter whose telephone number is 571-272-1076. The examiner can normally be reached on 9:30 a.m.-6:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James J. Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
